

HMS Florida Quarterly Report – July/August/September 2023 Sarah Miller, Director Kassie Kemp, Database Manager

Volunteer Opportunities: HMS Database Management Activities

Kassie worked on QRQC and updates for the HMS Florida Arches Database. She collaborated with Adam Cox at Legion GIS to fix bugs and glitches and clean up Scout Report entries in Arches. She also completed another FMSF update to the database, adding 200 arch sites, 15 cemeteries, and 1 structure. Kassie continued to attend Arches US User Group meetings and manage scouts as they sign up as well as coordinate with regional coordinators on HMS activity. Kassie continued to work with Rachael Kangas to revamp the HMS Scout signup program. Kassie and Rachael created content for the new Canvas website and reviewed material created for the new modules.

Kassie worked on gathering information for the Data Management Plan for the NERRs collaborative science grant. She also gathered documents and links to create the public Open Science Framework (OSF) webpage for the grant. Kassie worked closely with FPAN staff to complete site file updates for archaeological sites in collaboration with the St. Johns River Water Management District and cemeteries in Nassau County. Kassie and HMS scout Chris Nolan worked together to complete updated and new FMSF forms for cemeteries in the Northeast Region visited by FPAN staff and cemeteries Chris visited while in Florida.
